

ST. CHRISTOPHER'S PRIMARY SCHOOL ACCEPTABLE USE POLICY

Aim

The aim of this Acceptable Use Policy (AUP) is to ensure that pupils will benefit from learning opportunities offered by the school's Internet resources in a safe and effective manner. Internet use and access is considered a school resource and privilege. Therefore, if the school's AUP is not adhered to this privilege will be withdrawn and appropriate sanctions – as outlined in the AUP – will be imposed.

The Board of Management will review the AUP regularly. Before signing, the AUP should be read carefully to ensure that the conditions of use are accepted and understood.

Our School's Strategy

The Internet and digital media can help our pupils learn, create and communicate in ways that we would never have imagined previously. The online world is very much part of their lives, they are “growing up digitally” with technology embedded in every aspect of their lives. Digital literacy skills are key life skills for children and young people today. They need to be media savvy and know how to effectively search for and evaluate online content; know how to protect personal information and reputation; know to respect copyright and intellectual property and know where to get help if problems arise. The Internet is a valuable teaching and learning tool. It can develop children's independent research skills and promote lifelong learning. The school employs a number of strategies in order to maximise learning opportunities and reduce risks associated with the Internet. The school's policy is to look for opportunities across the curriculum to reinforce online safety messages.

Security Measures

- Internet use by children in school will always be supervised by a teacher.
- Filtering software such as the Schools Broadband Programme will be used in order to minimise the risk of exposure to inappropriate material.
- The Schools Broadband Programme provides an integrated set of services to schools which includes broadband connectivity and services including content filtering, webhosting, and security services. These services are managed by the Schools Broadband Team which includes PDST Technology in Education working closely with the Department of Education and Skills and HEAnet. The PDST Technology in Education Broadband Service Desk is the single point to contact for schools for all broadband related issues, providing information, advice and support to schools. The school will regularly monitor pupils' Internet usage.
- Students and teachers will be provided with training and information in the area of Internet safety. (e.g. www.webwise.ie)
- Uploading and downloading of non-approved software will not be permitted.
- Virus protection software will be used and updated on a regular basis.
- The use of memory sticks or other digital storage media in school requires a teacher's permission.
- Children are expected to respect computers, hardware, and software and not to intentionally waste limited resources in school such as paper or ink.
- Students will observe good “netiquette” (etiquette in the internet) at all times and will not undertake any actions that may bring the school into disrepute.

- Google Classroom is the main tool that we will use to remotely communicate with our pupils from 1st to 6th classes. Google Classroom is a file management system. Classroom simplifies the distribution and collection process of student work. The teacher is able to compile a collection of documents, videos and resource links into an assignment. The students can view the document, edit the document, or receive a copy of the document depending on the settings set by the teacher. Google Docs are both COPPA and FERPA compliant when using a Google Apps for Education (GAfE) account. Google Classroom restricts participation in the environment to staff and students on the domain. Under GAfE students and teachers are given a Google account login that is specific to the school's domain. This may look something like adaly@scps.ie. Students and teachers would need to be logged into and utilise their GAfE accounts to participate in the Classroom environment. This protects student information from outside users since regular Gmail accounts or other GAfE accounts from different schools could not be added into a teacher's Classroom.
- ClassDojo is the tool that we will use to communicate remotely with our pupils in Junior and Senior Infants. ClassDojo is a school communication platform that connects teachers, students, and families, and brings them closer together. This is done in two ways. One, by sharing what's being learned in the classroom back home through portfolios, photos, videos, and messages. And, two, by helping students build social-emotional skills through in-classroom feedback and engaging activities. These relationships require trust, which is why it is vitally important that ClassDojo is a safe and private environment for teachers, parents, and students. Only the student themselves, their families, and their connected teachers or school leaders can see a student's profile and portfolio. ClassDojo's servers are in highly secure, military-grade data centers that are access-controlled. ClassDojo uses bank-grade security at the software and network level to ensure all information is transmitted securely. ClassDojo is compliant with GDPR. They are also certified under the EU-US and Swiss-US Privacy Shield.

Use of the Internet

- Students will use the Internet in school for educational purposes only.
- In the event of a child accidentally accessing inappropriate material or images during a lesson, the student will immediately minimize the page and report the incident to the class teacher without attracting the attention of other students. The teacher should report the incident to the ICT Co-coordinator.
- Students will not intentionally visit Internet sites that contain obscene, illegal, hateful or otherwise objectionable materials.
- Pupils will be familiar with copyright issues relating to online learning.
- Students will never disclose or publicise personal information.
- Downloading materials or images not relevant to their studies, is in direct breach of the school's acceptable use policy.
- Students will be aware that any usage, including distributing or receiving information, school-related or personal, may be monitored for unusual activity, security and/or network management reasons.
-

iPads

- Students should never leave their iPad unattended when in use
- Students should follow teacher's instructions accessing only the applications to which the teacher has agreed.
- Students require permission before sending any form of electronic message.
- Audio or vision taken at school cannot be transmitted, broadcast or transferred without the teacher's permission.
- The camera and audio recording functions may only be used under the teachers' direction.
- Identity theft (Pretending to be someone else) is in direct breach of the school's acceptable use policy.
- In the event of a child accidentally accessing inappropriate material or images during a lesson, the student will immediately minimize the page and report the incident to the class teacher without attracting the attention of other students.
- iPads must be handled with care at all times.
- Any damage to the device must be reported immediately to the teacher.

Email

- Students may use approved email accounts under supervision by or with permission from the class teacher.
- Students will not send or receive any material that is illegal, obscene, defamatory or that is intended to annoy or intimidate another person.
- Children are not allowed to access their own (unapproved) email accounts in school.
- Students will not reveal their own or other people's personal details, such as addresses or telephone numbers or pictures.
- Students will never arrange a face-to-face meeting with someone they only know through emails or the Internet.
- Students will note that sending and receiving email attachments is subject to permission from their teacher.
- Students will only have access to chat rooms, discussion forums or other electronic communication forums that have been approved by the school.

School Website

- Pupils will be given the opportunity to publish work on the school website.
- Digital photographs of individual pupils will not be published on the school website. Photographs will focus on groups rather than individuals.
- Personal pupil's information (name, address etc) will be omitted from the school web pages.
- Pupils will continue to own copyright on any work published. The website will be checked regularly to ensure that there is no content that compromises the safety of pupils or staff.

Personal Devices

- Pupils using their own technology in school, such as leaving a mobile phone turned on or using it in class, sending nuisance text messages or the unauthorized taking of images

with a mobile phone camera, still or moving is in direct breach of the school's acceptable use policy.

- All personal devices are to be turned off during school hours.

Staff

- The Internet is available for Staff for personal and professional use. Personal use of the Internet should not occur during class time.

Support Structures

- The school will inform students and parents of key support structures and organisations that deal with illegal material or harmful use of the Internet.
- From time to time parents will receive information and advice regarding Internet safety in the home.

Distance Learning

- In circumstances where teaching cannot be conducted on the school premises, teachers may use Google Classroom, Google Meet, Zoom, Clasdojo or other platforms, approved by the principal, to assist with remote teaching, where necessary.
- The school has signed up to the terms of service of the online platforms in use by the school and has enabled the most up to date security and privacy features which these platforms provide.
- In the case of Google Classroom, Google Meet and Zoom, parents/guardians must grant permission for their child to have a school email address such as adaly.student@scps.ie. Parents/guardians will be provided with the password and must agree to monitor their child's participation in any such interactions conducted on online platforms.
- Discussion forums on Google Classroom, Google Meet and/or Zoom will only be used for educational purposes and should always be supervised by an adult.
- Parents will receive prior notification of any such virtual meeting/video conferencing.

Sanctions

- Some material available on the Internet is unsuitable for children and therefore the guidelines in this policy must be adhered to at all times. Access to the Internet will be withdrawn from pupils who fail to maintain acceptable standards of use. Internet access in school includes a strict filtering service yet no filtering service is completely fool proof.
- Procedures are in place should a child accidentally access inappropriate material and also should a child deliberately abuse the use of the Internet in school.
- Intentional misuse of the Internet will result in disciplinary action including written warnings, withdrawal of access privileges, and, in extreme cases, suspension or expulsion. The school also reserves the right to report any illegal activities to the appropriate authorities.
- All of these sanctions are in line with our school's discipline policy.

Legislation

Information is available on the Internet on the following legislation relating to use of the Internet which teachers, students and parents should familiarise themselves with:

- The Data Protection Act 1988
- Data Protection (Amendment) Act 2003
- Video Recordings Act 1989
- Interception Act 1993
- Child Trafficking and Pornography Act 1998
- Anti-Bullying Guidelines for Primary Schools 2013
- EU General Data Protection Regulations 2018.

The AUP Policy for St. Christopher's Primary School was ratified by the Board of Management.

Chairperson: _____

Date: _____

PERMISSION FORM

Name of Pupil: _____

Class: _____

Please review the schools Acceptable Use Policy then sign and return this permission form to the class teacher.

Pupil

I agree to follow the school's Acceptable Use Policy on the use of the Internet. I will use the Internet in a responsible way and obey all the rules explained to me by the school.

Pupil's Signature: _____

Date: _____

Parent/Guardian

As the parent or legal guardian of the above pupil, I have read the Acceptable Use Policy and grant permission for my son or daughter or the child in my care to access the Internet. I understand that Internet access is intended for educational purposes. I also understand that every reasonable precaution has been taken by the school to provide for online safety but the school cannot be held responsible if pupils access unsuitable websites.

I accept the above paragraph I do not accept the above paragraph
(Please tick as appropriate)

In relation to the school website, I accept that, if the school considers it appropriate, my child's schoolwork may be chosen for inclusion on the website. I understand and accept the terms of the Acceptable Use Policy relating to publishing children's work on the school website.

I accept the above paragraph I do not accept the above paragraph
(Please tick as appropriate)

Date: _____

Acceptable Use Policy

St. Christopher's Primary School has an Acceptable Use Policy in place to ensure that all pupils benefit from learning opportunities offered by the school's Internet and digital media resources in a safe and effective manner.

My name is _____.

- I will only go on websites that have been approved by my teacher. I will not visit an inappropriate site on purpose.
- If I accidentally access an inappropriate site or image, I will minimise the page and tell the teacher immediately, without attracting the attention of those around me.
- I will use the Internet and digital media for educational purposes only.
- I will always use a safe search engine such as image bank on www.scoilnet.ie to look up images.
- I will refrain from directly copying information from the Internet into my own work. I will always use my own words.
- I will never download images or words that have nothing to do with my school work.
- I am fully aware that everything I do on a school computer/laptop is monitored by the school.
- I will never access my personal email account in school.
- I will never access chat rooms in school.

In and Out of school

- If I bring a mobile phone to school it will be switched off and in my bag until I leave the school premises.
- I will never send text messages, emails and comments that are harmful and hurtful to another person.
- I will never give out my name, address, phone number to anyone online.
- I will not share personal information about another person online.
- I will always use my Username and not my real name on websites so that I can protect my identity.
- I will never arrange to meet in person anyone I meet online.
- I will not use my phone/Ipad to take photos of people without their permission.
- I will not upload any photos without getting permission.
- My password is my own and I will not share it – even with my best friend.

Signature: _____.

Student Pledge for iPad Use

- I will take good care of my iPad.
- I will never leave the iPad unattended.
- I will never lend my iPad to others.
- I will know where my iPad is at all times.
- I will keep food and drinks away from my iPad since they may cause damage to the device.
- I will not disassemble any part of my iPad or attempt any repairs.
- I will use my iPad in ways that are appropriate.
- I understand that my iPad is subject to inspection at any time without notice.
- I will only photograph people with their permission.
- I will only use the camera or the microphone when my teacher tells me to.
- I will only use my iPad as instructed by the teacher and use the right app at the right time.
- I will never use another person's iPad to cause offence or damage or upset.

- I will never share any images or movies of people in a public space on the Internet, unless I am asked to do so by my teacher.

I agree to abide by the statements of this iPad acceptable use policy
